This song is performed in 2nd position. Check the Tabulature and the video.  
You will never play open 5th or open 4th Strings.

The notes with the stems down are plied by your THUMB with a REST stroke.  
The Thumb comes to rest on the next string closest to the FLOOR.

The notes with the stems up are played with fingers 1 and 2 with FREE stokes.  
These fingers just reach down and pluck the string and then hang in space.

It's best to start practicing this piece with just working on the Thumb rest stroke.  
Get a good feel for that before you add the 1st and 2nd fingers.

For those of you that don't have a lot of Standard Notation experience, here's the  
easiest way to think about how to perform the rhythm.

Nearly all of the notes are performed at the same speed. After all but 2 thumbs,  
you play 1, 3 or 5 pulls with fingers 1 and 2. Check the Video.
